

PUBLIC WORKS - ENGINEERING

STL-365 GUNPOWDER POINT DRIVE PAVEMENT REHABILITATION AND INSTALLATION OF 3-INCH WATER LINE (ACCESS ROAD TO THE CHULA VISTA NATURE CENTER AND FUTURE U.S. FISH AND WILDLIFE SERVICE HEADQUARTERS)

PROJECT NEED

Gunpowder Point Drive is in need of pavement rehabilitation. This project will rehabilitate the segment of the roadway and water main located within U.S. Fish and Wildlife Service Land. The roadway currently provides access to the Chula Vista Nature Center and will also provide access to the future U.S. Fish and Wildlife Administrative Headquarters to be constructed adjacent to the Nature Center. The existing water main currently serving the Nature Center is located above ground and requires frequent repairs.

PROJECT FEATURES

- Pavement rehabilitation of the segment of Gunpowder Point Drive located on U.S. Fish and Wildlife Service Land (approximate westerly half of roadway).
- Installation of a new 3-inch water line that will provide more reliable permanent underground water service to the Nature Center and future U.S. Fish and Wildlife Headquarters.

CONSTRUCTION COST & FUNDING

- Gunpowder Point Drive & Water Main Rehabilitation: \$500,000 Federally funded by the "Public Lands Highways Discretionary" (PLHD) Program through the "Safe, Accountable, Flexible, Efficient Transportation Equity Act: a Legacy for Users" (SAFETEA-LU) Program.

PROJECT SCHEDULE

- Design / Environmental Clearance: July 2010 through November 2010
- Roadway and Water Line Construction: May 2011 through July 2011

PROJECT MANAGER

City of Chula Vista: Jose Luis Gomez, P.E., P.L.S. Ph. 619-476-2301
